 Pirgaccha, Rangpur  Gaurab's Portfolio

 A. K. M. Masudur Rahman  Gaurab1809

SUMMARY

I am a passionate Computer Science student with a strong foundation in software development, machine learning, and data-driven problem solving. I have worked on web development and AI research projects, gaining hands-on experience in designing innovative technology solutions. Skilled in programming, analytical thinking, and collaborative teamwork, I continuously expand my technical expertise by exploring emerging technologies and industry best practices. With a growth mindset, adaptability, and commitment to lifelong learning, I aspire to build impactful software solutions and contribute to the advancement of the technology industry.

PROFESSIONAL EXPERIENCE

President <i>CSE Society, BAUST</i>	02/2026 – Present Saidpur, Nilphamari
Organizing Secretary <i>BAUST Computer Club (BCC)</i>	07/2025 – Present Saidpur, Nilphamari
Technical Instructor and Mentor <i>BAUST Computer Club (BCC)</i>	2024 – Present Saipur, Nilphamari
- Mentored 20+ students in programming, web development, and problem-solving techniques. - Designed project-based learning materials and hands-on technical workshops. - Guided learners through practical development projects and code reviews. - Supported hackathon teams with planning and code reviews.	

EDUCATION

B.Sc. in Engineering in Computer Science and Engineering (CSE) <i>Bangladesh Army University of Science and Technology (BAUST)</i>	07/2022 – Present Saidpur, Nilphamari
Higher Secondary Certificate (HSC) <i>Dhaka College, Dhaka</i>	2019 – 2021 New Market, Dhaka
Secondary School Certificate (SSC) <i>Pirgachha Gyanendranarayan (J.N) Govt. Model High School</i>	2017 – 2019 Pirgachha, Rangpur

SKILLS

- Core Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Bootstrap, PHP, Blade Templates
- State & APIs:** REST APIs, Axios, Fetch, Context API, React Hooks
- Backend & DB:** Node.js, Express.js, Laravel, MongoDB, MySQL, SQLite, SQL, MariaDB, PostgreSQL, Firestore
- Mobile & Cross-Platform:** Flutter (Dart), Android (Java/Kotlin)
- AI / Machine Learning:** Python, Computer Vision, Natural Language Processing (NLP), Keras, Seaborn, Scikit-learn, TensorFlow, Pandas, NumPy, OpenCV
- Tools & Cloud:** Git, Vercel, Netlify, Cloudflare, AWS, Google Cloud, Firebase, Linux
- Software Engineering:** Object-Oriented Programming (OOP), SOLID Principles, MVC, Design Patterns (Factory, Singleton, Observer, Strategy), Agile (Scrum), SDLC, Software Requirements Specification (SRS)
- Design:** Figma, Canva
- Testing:** Black-box testing, White-box testing, Unit testing (Vitest/Jest), Integration testing, UAT

PROJECTS

Smart Campus Assistant Platform

04/2026 – 06/2026

Tech: React, Node.js, Kotlin, Python, APIs, AI

- A collaborative hackathon project simulating a real-world software company
- Integrated multiple technologies including web, mobile, backend, and AI components.

CodeSense AI

04/2026 – 05/2026

Tech: TypeScript, AI/LLM, Full-Stack

- An AI-powered code analysis web application designed for beginner and intermediate developers.
- Integrated AI capabilities for code review, bug detection, and developer productivity enhancement.

BAUST Tea Bar Management System

11/2025 – 03/2026

Tech: TypeScript, Full-Stack

- Developed a secure web-based food ordering and service management system for university authorities and faculty.
- Currently deployed and in use as BAUST official Tea Bar Management System.

DevVerse – Developer Community Platform

09/2025 – 11/2026

Tech: MERN, Full-Stack

- Built a full-stack developer community platform featuring blogs, mentorship, real-time collaboration, and AI-powered assistance.
- Implemented community engagement features and modern web technologies.

KenaKata.com – E-Commerce Platform

07/2025 – 11/2025

Tech: Laravel, PHP, Blade

- Built from the ground up following modern software engineering practices including MVC, SOLID principles, OOP, and recognized design patterns.
- Designed database structures and backend services for scalable operations.

THESIS

AI-Powered Automated Exam Evaluation and OBE-Based University Assessment System

09/2025 – Present

Funded by: Bangladesh Accreditation Council (BAC), Project No.: RP-26/2025–26

(Under Review)

PATENTS

BChat- An integrated Chatting Application

Patent Pending, Filed: October 2025.
